Dr. Guru N Reddy
Charman and Managing Director,
Continental Hospitals

About Us

- Our Medical oncologists offer individualized medicine and cutting-edge knowledge to all
- Our experienced competent surgical oncologists work collaboratively with all the other members of our oncology team
- We analyze genetic mutations, genetic studies of the cancer and in conjunction with our visiting genetic counsellors
- From the above, we acquire a knowledge of the patient's unique DNA profile
- Our experts in collaboration with our visiting genetic experts, can forecast risk scores
- We offer pharmacogenomics on how individual genes impact a person's response to medications, if a particular chemotherapy is not working, to help choose the correct drug.
- We offer Early Detection of cancer and Preventive strategies
- Our Radiation oncologists offer services with state of the art facilities in collaboration with our medical oncologists
- We have regular tumour board meetings to discuss our patients and arrive at clinical decisions by consensus.
- When required we obtain local and or overseas, second opinions from top centers.
